Revised
Special Public Notice

Only the call-in information is new

The Corps of Engineers will host a virtual public outreach workshop for the newly released North Slope of Alaska Regional General Permit (RGP-05)

The U.S. Army Corps of Engineers (Corps) – Alaska District, Regulatory Division will host a virtual public outreach workshop on **Wednesday, March 24, 2021**, from **2:00-3:30 pm** for anyone interested in learning about the newly released North Slope of Alaska Regional General Permit (RGP-05). The public will have an opportunity to ask questions or submit comments through the 'chat feature' during the workshop.

Under the Corps' authorities, Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act, the Regulatory Division has developed the North Slope of Alaska RGP (RGP-05) for projects that would impact 10 acres of wetlands, if they meet the conditions of that RGP, the projects could be for Oil & Gas infrastructure or Village projects. Additionally, Coastal Erosion projects would be allowed to impact up to 20 acres of waters of the U.S., including wetlands.

A copy of RGP-05 is available for public viewing along with a PDF of the Virtual Presentation on our website https://www.poa.usace.army.mil/Missions/Regulatory/Special-Public-Notices/

For more information and instructions on how to join the virtual public outreach workshop, please see the attached second page of this document.

If you would like to submit questions to be answered as part of the presentation, please send them to Mary Romero at: Mary.R.Romero@usace.army.mil.

Public Outreach – Virtual Workshop
North Slope of Alaska Regional General Permit (RGP-05)
March 24, 2021 at 2:00pm

Instructions to participate virtually

If you are new to WebEx video web conference, please allow a little extra time to download a temporary meeting application.

It is not necessary to enable a web camera for this meeting. Required Devices:
- Computer, tablet or other mobile device (with WiFi access)
- Phone

Join WebEx for both audio and visual connection

1. In your internet browser, search: https://usace1.webex.com/join/mary.r.romero. Or paste this link into your internet browser. WebEx may appear differently depending on the browser in use. If you are unable to connect through one browser, you might try a different one.

2. When you are on the meeting page, fill in your name and your email address as instructed. This information is required to access WebEx, however, USACE will not collect or store this information following the WebEx meeting.

3. Select the **'Join Meeting'** button.

4. Underneath the **'Select Audio Connection'** section, select the '**Call Me'** option.

5. Type in your phone number, including the area code, in the dialogue box (a green arrow in the image above points directly to this box) and then click '**Connect Audio'.** The program will then call your phone, so please be sure to answer it.

6. Using your phone keyboard, type "**1**" when directed.
You should now be connected audibly and visually to the meeting.
- All phone lines will be placed on mute by the meeting host
- It is not necessary to enable a web camera for this meeting

Troubleshooting
In the case that you encounter a lost or interrupted audio/telephone connection, you may either dial in directly using the information provided below.
