B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The lot under analysis is part of an urban subdivision which has been developed for decades. Inspection of the data available shows this property is not connected to any surface water, nor does it show hydric characteristics for soils, vegetation or hydrology. This parcel is categorized as upland, the Corps does not have jurisdiction over this property.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
