

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): November 11, 2020

ORM Number: POA-2020-00491, Van-Ghaih Subdivision, Circle Associated JDs: N/A, although POA-2015-00628 is adjacent.

Review Area Location¹: Approximately 1.7 miles south of Circle, Alaska via the Steese Highway. State/Territory: AK City: Circle County/Parish/Borough: Yukon-Koyukuk Census Area

Center Coordinates of Review Area: Latitude 65.802937 Longitude -144.088221

FINDINGS			
			m the following list MUST be selected. Com
he correspon	ding sections/	tables and summarize da	ata sources.
	•		d (i.e., there are no waters or water features
			ew area). Rationale: N/A or describe rational
			s" within Rivers and Harbors Act jurisdiction

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

D. Excluded Waters or Features

Excluded waters $((b)(1) - (b)(12))^4$:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
N/A	N/A	N/A	N/A

II. SUPPORTING INFORMATION

- **A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.
 - _x_ Information submitted by, or on behalf of, the applicant/consultant: *JD application, 10/28/2020*This information *is not* sufficient for purposes of this AJD.
 Rationale: *On-site photos from each lot are the only close up source of hydrology and*

vegetation available and were relied upon to construct a species composition list. Data sheets prepared by the Corps: N/A.

__x_ Photographs: See above. Also Google Earth Pro (June 6, 2019, accsed 11/2020) and ESRI Basemap (accessed 11/2020) aerial imagery was available.

Corps Site visit(s) conducted on: N/A.

- Previous Jurisdictional Determinations (AJDs or PJDs): *N/A*, although POA-2015-00628 is adjacent within the same subdivision.
- ____ Antecedent Precipitation Tool: <u>provide detailed discussion in Section III.B.</u>
- _x_ USDA NRCS Soil Survey: Yukon Flats Area, Alaska (v.2, June 2, 2020)
- _x_ USFWS NWI maps: Birch Creek Watershed, HUC8-19080401 (accsd online database 10/2020)
- USGS topographic maps: Circle D-1, 1:63,360.

Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

- **B.** Typical year assessment(s): N/A or provide typical year assessment for each relevant data source used to support the conclusions in the AJD.
- C. Additional comments to support AJD: Assessment area was converted decades ago when the Steese Highway was established. It was at one time part of the floodplain between Birch Creek and the Yukon River, but now is bounded by the Steese Highway berm, cutting it off from active hydrology to the east. It also appears to have been leveled and filled in the process of constructing the existing

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination.
