B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The original 2015 AJD determined the Lot was comprised "entirely uplands". A review of the Lot and the surrounding landscape show that no noticeable changes have occurred since the 2015 AJD was issued. Since there are no changes that would affect the hydrology, soils, or vegetation, the Lot is still determined to be comprised of uplands. The original MFR data/conclusions appear correct.
