

PLACER MINER WORKSHOP

Presented by the Corps of Engineers' Regulatory Division

WHO: Miners and any other interested parties

WHAT: Help miners understand the new Placer Mining General Permit (GP), POA-2014-55 and its Supplements required through the APMA process

WHEN: Three afternoons each in Fairbanks and Anchorage

FAIRBANKS:

January 26, February 11, March 24 / 1-5 pm all days
Noel Wien Library Conference Room @1215 Cowles Street

ANCHORAGE:

January 28, February 8, March 22 / 1-4 pm all days
Alaska Miners Association Conference Room
@121 W. Fireweed Lane, Suite 120

Some topics~

What is a wetland and how can you identify it.

Why are photos so important and what makes an excellent photo.

Why is the mitigation statement required when compensatory mitigation is not required?

Why is all the information on riparian areas and stream diversions so important?

What is a Restoration Plan for Aquatic Resources and why is it necessary?

Bring your paperwork, plans, and photographs, and ask us questions!

Call 907-753-5515 for more information
