

U.S. ARMY CORPS OF ENGINEERS
Alaska District

Randall L. Bowker

***Deputy District Engineer for Program Management
Chief, Program and Projects Management Division***

Randall L. Bowker became the Deputy District Engineer for Program Management (DPM) and Chief of the Program and Projects Management Division for the U.S. Army Corps of Engineers, Alaska District, in October 2014. In this position he provides oversight of the district's various programs and activities throughout the state and is responsible for assuring efficient and timely delivery of military, civil works, environmental, and other agency construction projects with an average annual value in excess of \$500 million. Leadership on programs outside Alaska include support to the U.S. Indo-Pacific Command by designing and constructing humanitarian assistance projects in countries throughout Southeast Asia and beddown of C-17's in India under the Foreign Military Sales Program.

Previously, Mr. Bowker served as Chief, Military Branch of the Programs and Project Management Division since May 2006. In that role, he managed the Army, Air Force and Missile Defense Programs. Significant beddown programs included the Stryker Brigade and Aviation Task Force at Fort Wainwright, Infantry Brigade Combat Team and 2nd Engineer Brigade at Fort Richardson, and C-17's and F/A-22's at Elmendorf Air Force Base.

Mr. Bowker served as Assistant Branch Chief for the Technical Engineering Branch and Chief of the Quality Management Section in the Engineering Division from September 2003 to May 2006. A civil engineer, Mr. Bowker joined the U.S. Army Corps of Engineers in May 1992, serving as a civil designer and hydraulics engineer.

His career has been focused on mentoring people and improving the program and project delivery. He streamlined the International Organizational Standardization processes at the Alaska District and brought quality assurance/quality control back to the forefront during project document preparation. He served as the Career Program 18 Intern Supervisor and regularly serves as project champion for local and regional Leadership Development Teams.

In 1992, Bowker received his Bachelor of Science degree in Civil Engineering from the University of Alaska Anchorage. He holds a professional engineering license in the State of Alaska. He attended the Army Management Staff College and the Sustaining Base Leadership and Management program in 2002. He graduated from Wayland Baptist University with a master's degree in management in 2007. He is a member of the Society of American Military Engineers. He was awarded the Bronze Order of the DeFleury in 2017.

Mr. Bowker is originally from Fayetteville, North Carolina. He is married and has two daughters.
