Good Afternoon,

For our discussion tomorrow, attached is the updated Kivalina Tribal Profile. I am also including my 'cliff notes' for tribal engagement best practices.

I provide Tribal Profiles to the Colonel for his background prior to all G2Gs. If you see anything that needs correcting or have additional information you would like to share please let me know.

I also included a short Power Point to guide our conversation tomorrow. This is a my pared down communications primer, but I think it is just what we need for our discussion.

Best,
Kendall
