Location of the Proposed Project Site:

Nearest Waterway:	
Section, Township, Range, and Meridian (if known):	
Latitude and Longitude (Decimal Degrees, NAD-83):	
Nearest City:	Subdivision:
Borough:	USGS Quad(s) (if known):
Driving Directions to Site:	

Project purpose:

Have any permits been issued for this site or project in the past (if known)?
--

The GPA must include:

- Drawings of the site and project plans (For more information on acceptable drawings and plans, please visit our website at <http://www.poa.usace.army.mil/Missions/Regulatory/Permits/> and click on “Guide to Drawings”)
- Delineation of wetlands, other special aquatic sites (riffle and pool complexes, sanctuaries and refuges, mudflats, vegetated shallows, and/or coral reefs), and other waters, such as lakes and ponds, and perennial, intermittent, and ephemeral streams, on the project site. Wetland delineations must be prepared in accordance with the current method required by the Corps. If you need guidance please contact the Corps for further information.

Description of the proposed project:

Provide surface area of impacts in wetlands or other waters of the U.S. or linear feet for streams and rivers.

Provide information on type(s) (i.e. sand, gravel, cobble, topsoil etc...) of Material Being Discharged and the Amount of Each Type in Cubic Yards:

Type	Type	Type
Amount in Cubic Yards	Amount in Cubic Yards	Amount in Cubic Yards

Describe methods for rehabilitation of disturbed areas. If you intend to use other locally-obtained native materials, identify the source.

You must satisfy the requirements in Regional General Condition (Attached).

Describe how you will satisfy the requirement that you avoid and minimize adverse impacts to wetlands and other waters to the maximum extent practicable. Examples of avoidance measures include site selection, routes, design configurations, etc... Minimization measures include limiting fill discharges to the minimum amount/size necessary to achieve the project purpose.

Would your proposed project result in the loss of greater than 1/10 of an acre of wetlands?

YES or NO

If YES, describe your proposed compensatory mitigation to offset unavoidable impacts to waters of the U.S., or, alternatively, why compensatory mitigation is not appropriate or practicable for your project. Compensatory mitigation may involve the restoration, enhancement, establishment (creation), and/or the preservation of aquatic sites.

Information for the following section can be found at locations listed below:

U.S. Fish and Wildlife Service and the National Marine Fisheries Service or their world wide Web pages at <http://www.fws.gov> or <http://www.fws.gov/ipac> and <http://www.nmfs.noaa.gov/pr/species/esa/>

Assistance regarding information on the location of or potential for the presence of historic resources can be sought from the State Historic Preservation Officer

Information on the location of the USACE projects in Alaska are listed on the world wide web pages at <http://www.poa.usace.army.mil/About/Offices/Construction-Operations/Rivers-and-Harbors/> and at <http://www.poa.usace.army.mil/About/Offices/Construction-Operations/Erosion-and-Flood-Mitigation/>.

For a full list of Nationwide Permit General Conditions please visit our web page at <http://www.poa.usace.army.mil/Missions/Regulatory/Permits/Nationwide-Permits/>

Verification from the Corps must be received if your project is located in any of the areas listed below

Are there any listed species or designated critical habitat that might be affected or is in the vicinity of the project, or is the project located in designated critical habitat? Federal agencies must provide the appropriate documentation to demonstrate compliance with the agency's procedures for compliance with the ESA. Information on the location of threatened or endangered species and their critical habitat can be obtained directly from the offices of the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. (see General Condition 18 and 22)

YES or NO

If YES, list all species:

Are there historic properties (listed on, determined to be eligible for listing on, or potentially eligible for listing on the National Register of Historic Places, including previously unidentified properties) that the proposed activity may have the potential to effect? Federal agencies must provide documentation demonstrating compliance with the Section 106 of the National Historic Preservation Act. Assistance regarding information on the location of or potential for the presence of historic resources can be sought from the State Historic Preservation Officer. (see General Condition 20)

YES or NO

If YES, state which property or properties may be affected and/or attach a vicinity map indicating the location of the historic property or properties.

Are there any U.S. Army Corps of Engineers (USACE) federally authorized Civil Works projects (i.e. 'Harbor, Navigation Channel, flood control, etc.') in the vicinity of your project?

YES or NO

If YES, state which USACE project is in the vicinity of your project.

Jurisdictional Determination

The Corps has received new guidance (Regulatory Guidance Letter 16-01) which states that the Corps will only complete a jurisdictional determination (JD) form if the applicant requests it. In other words, if the applicant does not request a JD, we can proceed straight into our permit evaluation, without completing a JD form.

If you wish to obtain a JD there are two types you may request:

An Approved Jurisdictional Determination (AJD) is completed when we can state definitively that we do or do not have authority over the aquatic resource in question. Approved JDs often require a site visit during the growing season. An AJD is appealable and expires after five years.

A preliminary jurisdictional determination (PJD) is when the Corps determines that we may have authority over the aquatic resources in the project area. A PJD often doesn't require a site visit and is expedited. It is not appealable and does not expire. Applicants who want a JD may request a PJD because it is often more expedient than an AJD.

Please indicate which you prefer:

NO JD REQUESTED or AJD or PJD

Application is hereby made for a permit or permits to authorize the work described in this preconstruction notification form. I certify the information in this preconstruction notification form is complete and accurate. I further certify that I possess the authority to undertake the work described herein or am acting as the duly authorized agent of the applicant.
