# APPROVED JURISDICTIONAL DETERMINATION FORM

	U.S. Army Corps of Engineers					
SECTION I: BACKGROUND INFORMATION						
A. REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): 25-Oct-2012						
B. DISTRICT OFFICE, FILE NAME, AND NUMBER:	Alaska District, POA-2012-00832-JD1					
C. PROJECT LOCATION AND BACKGROUND INFO	DRMATION:					
State :	AK - Alaska					
County/parish/borough:	Anchorage					
City:	Anchorage					
Lat:	61.06994					
Long:	-149.75299					
Universal Transverse Mercator	Folder UTM List					
	UTM list determined by folder location					
	NAD83 / UTM zone 6N Westers LITM List					
	Waters UTM List  UTM list determined by waters location					
	NAD83 / UTM zone 6N					
Name of nearest waterbody:	Little Rabbit Creek					
Name of nearest Traditional Navigable Water (TNV	N): Turnagain Arm					
Name of watershed or Hydrologic Unit Code (HUC	:): Little Rabbit Creek					
Check if map/diagram of review area and/or pote	ential jurisdictional areas is/are available upon request.					
Check if other sites (e.g., offsite mitigation sites, form.	disposal sites, etc¿) are associated with the action and are recorded on a different JD					
D. REVIEW PERFORMED FOR SITE EVALUATION:						
Office Determination Date:						
✓ Field Determination Date(s): 24-Oct-2012						
Field Determination Date(s). 24-Oct-2012						
SECTION II: SUMMARY OF FINDINGS						
A. RHA SECTION 10 DETERMINATION OF JURISD	ICTION					
A. RHA SECTION 10 DETERMINATION OF JURISD	ICTION  Id Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.					
A. RHA SECTION 10 DETERMINATION OF JURISD  There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the	ne tide.					
A. RHA SECTION 10 DETERMINATION OF JURISD  There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the	d Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.					
A. RHA SECTION 10 DETERMINATION OF JURISD  There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the Waters are presently used, or have been	ne tide.					
A. RHA SECTION 10 DETERMINATION OF JURISD There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the Waters are presently used, or have been commerce.  Explain:  B. CWA SECTION 404 DETERMINATION OF JURIS	and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.  The tide.  The tide in the past, or may be susceptible for use to transport interstate or foreign					
A. RHA SECTION 10 DETERMINATION OF JURISD There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of th  Waters are presently used, or have bee commerce.  Explain:  B. CWA SECTION 404 DETERMINATION OF JURIS  There "waters of the U.S." within Clean Water Act (Co.)  I. Waters of the U.S.	and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.  The tide.  The tide is a used in the past, or may be susceptible for use to transport interstate or foreign application.  The part 328 in the review area.					
A. RHA SECTION 10 DETERMINATION OF JURISD There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the Waters are presently used, or have been commerce.  Explain:  B. CWA SECTION 404 DETERMINATION OF JURIST There "waters of the U.S." within Clean Water Act (Co. I. Waters of the U.S.  I. Waters of the U.S. II. Maters of U.S. in review area.	and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.  The tide.  The tide in the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and part of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past of the past, or may be susceptible for use to transport interstate or foreign and past of the past of					
A. RHA SECTION 10 DETERMINATION OF JURISD There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the Waters are presently used, or have been commerce.  Explain:  B. CWA SECTION 404 DETERMINATION OF JURIST There "waters of the U.S." within Clean Water Act (Commerce).  I. Waters of the U.S.  I. Indicate presence of waters of U.S. in review area water Name	and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.  The tide.  The tide in the past, or may be susceptible for use to transport interstate or foreign area.  The tide in the past, or may be susceptible for use to transport interstate or foreign area.  The tide in the past, or may be susceptible for use to transport interstate or foreign area.  The tide in the past, or may be susceptible for use to transport interstate or foreign area.  The tide in the past, or may be susceptible for use to transport interstate or foreign area.					
A. RHA SECTION 10 DETERMINATION OF JURISD There "navigable waters of the U.S." within Rivers an  Waters subject to the ebb and flow of the Waters are presently used, or have been commerce.  Explain:  B. CWA SECTION 404 DETERMINATION OF JURIST There "waters of the U.S." within Clean Water Act (Commerce).  I. Waters of the U.S.  I. Indicate presence of waters of U.S. in review area water Name	and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.  The tide.  The tide in the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and the past, or may be susceptible for use to transport interstate or foreign and part of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past, or may be susceptible for use to transport interstate or foreign and past of the past of the past, or may be susceptible for use to transport interstate or foreign and past of the past of					

Area: (m²) Linear: (m)

c. Limits (boundaries) of jurisdiction:

based on: OHWM Elevation: (if known)	
2. Non-regulated waters/wetlands: <sup>3</sup>	
Potentially jurisdictional waters and/or wetlands were assess	ed within the review area and determined to be not jurisdictional. Explain:
SECTION III: CWA ANALYSIS	
A. TNWs AND WETLANDS ADJACENT TO TNWs	
1.TNW Not Applicable.	
2. Wetland Adjacent to TNW Not Applicable.	
B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW)	AND ITS ADJACENT WETLANDS (IF ANY):
1. Characteristics of non-TNWs that flow directly or indirectly	nto TNW
(i) General Area Conditions: Watershed size: Drainage area: Average annual rainfall: inches Average annual snowfall: inches	
(ii) Physical Characteristics (a) Relationship with TNW:  Tributary flows directly into TNW.  Tributary flows through [] tributaries before entering TNW.: Number of tributaries  Project waters are river miles from TNW.  Project waters are river miles from RPW.  Project Waters are aerial (straight) miles from TNW.  Project waters are aerial(straight) miles from RPW.  Project waters cross or serve as state boundaries.  Explain:	
Identify flow route to TNW: <sup>5</sup>	
<b>Tributary Stream Order, if known:</b> Not Applicable.	
(b) General Tributary Characteristics:	
Tributary is: Not Applicable.	
Tributary properties with respect to top of bank (estimate): Not Applicable.	
Primary tributary substrate composition: Not Applicable.	
Tributary (conditions, stability, presence, geometry, gradient). Not Applicable.	
(c) Flow: Not Applicable.	

#### Surface Flow is:

Not Applicable.

#### Subsurface Flow:

Not Applicable.

### Tributary has:

Not Applicable.

If factors other than the OHWM were used to determine lateral extent of CWA jurisdiction:

# High Tide Line indicated by:

Not Applicable.

# Mean High Water Mark indicated by:

Not Applicable.

### (iii) Chemical Characteristics:

Characterize tributary (e.g., water color is clear, discolored, oily film; water quality;general watershed characteristics, etc.). Not Applicable.

## (iv) Biological Characteristics. Channel supports:

Not Applicable.

### 2. Characteristics of wetlands adjacent to non-TNW that flow directly or indirectly into TNW

### (i) Physical Characteristics:

#### (a) General Wetland Characteristics:

Properties:

Wetland Name	Size (Acres)	Wetland Type	Wetland Quality	Cross or Serve as State Boundaries. Explain
POA-2012-832, Wetland	1	shrub scrub	pristine	-

# (b) General Flow Relationship with Non-TNW:

# Flow is:

Wetland Name	Flow	Explain
POA-2012-832, Wetland	Perennial flow.	-

# Surface flow is:

Wetland Name	Flow	Characteristics
POA-2012-832, Wetland	Discrete and confined	-

## Subsurface flow:

Wetland Name	Subsurface Flow	Explain Findings	Dye (or other) Test
POA-2012-832, Wetland	Yes	after several days of consecutive freezing nights and days, water was observed flowing in the stream with icing over the flowing waters	-

## (c) Wetland Adjacency Determination with Non-TNW:

Wetland Name	Directly Abutting	Discrete Wetland Hydrologic Connection	<b>Ecological Connection</b>	Separated by Berm/Barrier
POA-2012-832, Wetland	Yes	-	-	-

## (d) Proximity (Relationship) to TNW:

Wetland Name		Aerial Miles From TNW	Flow Direction	Within Floodplain
POA-2012-832, Wetland	2-5	2-5	Wetland to navigable waters	2-year or less

#### (ii) Chemical Characteristics:

Characterize tributary (e.g., water color is clear, discolored, oily film; water quality; general watershed characteristics, etc.).

Wetland Name	Explain	Identify specific pollutants, if known	
POA-2012-832, Wetland	-	-	

#### (iii) Biological Characteristics. Wetland supports:

Wetland Name	Riparian Buffer	Characteristics	Vegetation	Explain	
POA-2012-832, Wetland	X	-	Х	-	

### 3. Characteristics of all wetlands adjacent to the tributary (if any):

All wetlands being considered in the cumulative analysis:

Not Applicable.

Summarize overall biological, chemical and physical functions being performed:

Not Applicable.

# C. SIGNIFICANT NEXUS DETERMINATION

A significant nexus analysis will assess the flow characteristics and functions of the tributary itself and the functions performed by any wetlands adjacent to the tributary to determine if they significantly affect the chemical, physical, and biological integrity of a TNW. For each of the following situations, a significant nexus exists if the tributary, in combination with all of its adjacent wetlands, has more than a speculative or insubstantial effect on the chemical, physical and/or biological integrity of a TNW. Considerations when evaluating significant nexus include, but are not limited to the volume, duration, and frequency of the flow of water in the tributary and its proximity to a TNW, and the functions performed by the tributary and all its adjacent wetlands. It is not appropriate to determine significant nexus based solely on any specific threshold of distance (e.g. between a tributary and its adjacent wetland or between a tributary and the TNW). Similarly, the fact an adjacent wetland lies within or outside of a floodplain is not solely determinative of significant nexus.

#### Significant Nexus: Not Applicable

# D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE:

#### 1. TNWs and Adjacent Wetlands:

Not Applicable.

# 2. RPWs that flow directly or indirectly into TNWs:

Not Applicable.

Provide estimates for jurisdictional waters in the review area:

Not Applicable.

## 3. Non-RPWs that flow directly or indirectly into TNWs:8

Not Applicable.

Provide estimates for jurisdictional waters in the review area:

Not Applicable.

# 4. Wetlands directly abutting an RPW that flow directly or indirectly into TNWs.

Wetland Name	Flow	Explain
POA-2012-832, Wetland	PERENNIAL	-

# Provide acreage estimates for jurisdictional wetlands in the review area:

Wetland Name	Туре	Size (Linear) (m)	Size (Area) (m²)
POA-2012-832, Wetland	Wetlands directly abutting RPWs that flow directly or indirectly into TNWs	-	4046.856
Total:		0	4046.856

<ol><li>Wetlands adjacent to but not directly abutting an RPW that flow directly or indirectly into TNWs: Not Applicable.</li></ol>
Provide acreage estimates for jurisdictional wetlands in the review area:  Not Applicable.
6. Wetlands adjacent to non-RPWs that flow directly or indirectly into TNWs: Not Applicable.
Provide estimates for jurisdictional wetlands in the review area:  Not Applicable.
7. Impoundments of jurisdictional waters: <sup>9</sup> Not Applicable.
E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS: 10 Not Applicable.
Identify water body and summarize rationale supporting determination: Not Applicable.
Provide estimates for jurisdictional waters in the review area:  Not Applicable.
F. NON-JURISDICTIONAL WATERS. INCLUDING WETLANDS
If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements:
Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce:
Prior to the Jan 2001 Supreme Court decision in "SWANCC," the review area would have been regulated based soley on the "Migratory Bird Rule" (MBR):
Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction (Explain):
Other (Explain):
Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (ie., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment:  Not Applicable.
Provide acreage estimates for non-jurisdictional waters in the review area, that do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction.  Not Applicable.
SECTION IV: DATA SOURCES.
A. SUPPORTING DATA. Data reviewed for JD  (listed items shall be included in case file and, where checked and requested, appropriately reference below):  Not Applicable.
B. ADDITIONAL COMMENTS TO SUPPORT JD: Not Applicable.
1-Boxes checked below shall be supported by completing the appropriate sections in Section III below.

<sup>&</sup>lt;sup>2</sup>-For purposes of this form, an RPW is defined as a tributary that is not a TNW and that typically flows year-round or has continuous flow at least "seasonally" (e.g., typically 3 months).

 $<sup>^{3}\</sup>text{-Supporting}$  documentation is presented in Section III.F.

<sup>&</sup>lt;sup>4</sup>-Note that the Instructional Guidebook contains additional information regarding swales, ditches, washes, and erosional features generally and in the arid West.

<sup>5-</sup>Flow route can be described by identifying, e.g., tributary a, which flows through the review area, to flow into tributary b, which then flows into TNW.

<sup>&</sup>lt;sup>6</sup>-A natural or man-made discontinuity in the OHWM does not necessarily sever jurisdiction (e.g., where the stream temporarily flows underground, or where the OHWM has been removed by development or agricultural practices). Where there is a break in the OHWM that is unrelated to the waterbody's flow regime (e.g., flow over a rock outcrop or through a culvert), the agencies will look for indicators of flow above and below the break.

<sup>7&</sup>lt;sub>-Ibio</sub>

<sup>&</sup>lt;sup>8</sup>-See Footnote #3.

 $<sup>^{9}</sup>$  -To complete the analysis refer to the key in Section III.D.6 of the Instructional Guidebook.

<sup>10-</sup>Prior to asserting or declining CWA jurisdiction based solely on this category, Corps Districts will elevate the action to Corps and EPA HQ for review consistent with the process described in the Corps/EPA Memorandum Regarding CWA Act Jurisdiction Following Rapanos.
